LIVELO #1 2024

THE VERSATILE ELECTRIC FAMILY BIKE.
DESIGNED AND MANUFACTURED IN SWEDEN.

LIVELO IS THE FUTURE

Experience electrically assisted driving pleasure on three wheels. LiveLo #1 makes your everyday life easier and brightens up your bike rides with a focus on safety, quality and design.

FOR ALL OCCASIONS

WWW.LIVELO.COM

SLIMMED DOWN

A flexible transport bike with magnetic locks in the front and waterproof zippers on the sides that keep the cover in place. Livelo is 88 cm wide, meaning it fits through a standard door.

SMART SEAT

The cover is easily converted to a seat with belts for the kids within seconds. Transforming into the Livelo family bike.

RAIN COVER

Protect your passengers from weather and wind. Livelo's rain cover is rolled out in no time if necessary, and otherwise stays rolled up on the back part of the protective arch.

SPACIOUS

Seat and belts are hidden away behind the backrest to maximize cargo space. Easy and flexible to adapt to different needs.

LIVELO #1 FEATUTURES

WWW.LIVELO.COM

Integrated front- and rear lighting.

The frame is made of aluminum 6061 alloy, one of the lightest and most durable qualities that exist.

Backlit trip computer - you can see, among other things, battery time, range, speed, trip, average speed, and electric-assistance level.

Walk assist and reverse function.

Two wheels in front, one wheel in the rear - safe to ride all year round.

9-speed rear gear - flexible and reliable.

Elastic assistance - efficient from A to B.

Compact and lightweight - Livelo is suitable for everyone and is also great to ride unloaded.

Fully developed steering control and wheel suspension, optimized camber, caster, and KPI angles.

Hydraulic disc brakes - the most efficient and safest, with a parking brake function.

Protective arch - unique safety detail that protects the children and to which you attach the rain cover.

Patented light textile construction with a cover that easily turns into a seat for two children with safety belts.

Anti-theft protection with a PIN code on the display and built-in GPS tracking.

FOR EVERY PURPOSE

Leave children at preschool and school

Commute to work

Shop

Excursion and picnic

Cycle with pets

THE BIKE THAT DOES EVERYTHING

Cycling is the most energy-efficient, easiest, and most useful way for one person to transport themselves, the children, the grocery bags, or other cargo.

Not least in an urban environment. Therefore, we have created a modern transport and family bike that breathes the future, new thinking, innovation, and safety.

We want more people to cycle more. We know that everyone wins - even those in the car.

A bike from Liveloo delivers freedom, contributes to a better environment, efficient and predictable movement, quality of life, and much better transport cycling.
